Subject: Draft Summary FS Comments

Thanks to everyone who provided input about your review of the draft FS. This transmits a compilation of FS review comments received to date. The comments are broken into 2 general tables: Big Picture Comments and FS Section-Specific Comments. The Big Picture Comments are loosely grouped into similar topics.

Please note that this is a draft summary, a work in progress, for the FS Review Team only - and will be superseded as additional comments are received.

CDM Smith will also provide an invitation to join the meeting electronically via WebEx. We will take a brief break after the TCT call and reopen the conference call for the FS Review team.
